Esignature is here for your specialty

April 3, 2020

This article is intended for behavioral health professionals, certified nurse midwives, nurse practitioners, physician assistants, physicians, and psychiatrists

It's here! Providers can now electronically sign their provider contracts when new providers join your group or the practitioner makes a change. Just click and electronically sign, and your agreement is returned to us. Your electronic signature has the same legal effect as a handwritten signature.

How will it work?

When you complete [an application or an update form](#), we'll ask for the email address of the person who needs to sign the provider contract or Attachment A. The cover letter we send you will include detailed instructions on how to electronically sign and return the contract.

Our emails will be sent to you from Adobe Sign (echosign@echosign), an industry leader. When you sign a contract electronically, you'll receive a copy of the countersigned agreement. If you don't receive an expected contract, please check your spam folders to make sure that our secure message wasn't placed there.

It is our goal to provide a seamless transaction for your practice and make contracting more efficient.

Questions?

Please contact Network Management and Credentialing Services at **1-800-316-BLUE (2583)**.
