

At-a-Glance: ReportBlue

ReportBlue¹ is a secure and user-friendly web-based reporting tool that allows you to access, analyze, and report on your organization’s health care experience. Simply log in and download standard monthly reports. Also available is the ability to create customizable reports that allow you to make informed, insightful decisions. ReportBlue employs the latest technology, protects your employees’ privacy, and delivers information quickly and securely.

With ReportBlue, you can:

Download standard monthly reports

Access customizable databases and reports

Conduct comprehensive analyses

Integrate financial and clinical data

ReportBlue Highlights:

Greater accuracy:

- Labeling out-of-state providers
- Data available ten days earlier than the **Standard Cost and Utilization** reports
- Member-based charges

Interactive reporting allows you to:

- Analyze data from various perspectives
- Customize reports for more insight
- Rank, filter, and expand data
- See network averages and benchmark data
- Include dental reporting
- Conduct comprehensive analyses
- Integrate financial and clinical data for a holistic view of your organization’s health plan experience
- Full product availability
- Comprehensive **Episode Treatment Group** data
- Run reports by policy period or a rolling date
