Transition of Care Form

(To be used when a member changes from another Health Plan to Anthem BCBS)

Our goal is to provide benefits for continuity of care for any new member of Anthem Blue Cross and Blue Shield who is receiving prenatal care or is in ***active*** *treatment for an acute or chronic condition with a* non-participating provider. Visits through the current period of active treatment **or** up to 90 days, depending on the care needs and circumstances, will be approved. If the member chooses to continue her prenatal care with an out-of-network provider, the visits may be approved if the member is receiving prenatal care during the second or third trimester of pregnancy, and will continue through the provision of post-partum care directly related to the delivery.

If you or any covered family member are receiving care of this kind from a non-participating provider, please complete this form. Information provided will be kept confidential by Anthem Blue Cross and Blue Shield and will only be used in accordance with applicable privacy laws. Anthem Blue Cross and Blue Shield may share this information with your primary care provider (PCP) and/or specialist, and may be in contact with you to facilitate continuation of care.
