

# Diabetes Educational Program Resource List

The American Diabetes Association recognizes the following Massachusetts diabetes education programs, all of which meet national standards for excellence. Blue Cross Blue Shield of Massachusetts is providing you this list as one resource, and urges you to speak with your physician about how to access these or other services that may be available in your area. Some physicians may have certified diabetes educators working in their offices or at affiliated facilities.

If you are a Blue Cross Blue Shield of Massachusetts member seeking care outside of Massachusetts, please consult your doctor to find an in-network certified diabetes educator. You may also locate one by calling 1-800-DIABETES (1-800-342-2383) or by visiting online [www.diabetes.org/education/eduprogram.asp](http://www.diabetes.org/education/eduprogram.asp).

In addition, you may wish to check the specifics of your individual Blue Cross Blue Shield health plan to determine which of these services are covered. All services should be coordinated through your Blue Cross Blue Shield Primary Care Physician, and provided by an in-network provider.
