

Important Information About Your Plan

Your health plan lets you get care from providers who participate in the **HMO Blue New England Network**. Under this plan, you're required to choose a primary care provider (PCP) to manage your care and refer you to specialists, if needed. For help finding a provider or hospital, visit myfindadoctor.bluecrossma.com and log in to select the following network: **HMO Blue New England**.

How to Read Your ID Card

Your Blue Cross member ID card contains our Member Service telephone number and your member ID number, and sometimes lists the costs you'll pay for certain health services. You should always carry your ID card with you when you visit the doctor. You can also download the MyBlue App to keep a digital copy of your ID card on your phone.

Copays

OV: Office visit for primary care provider or specialist
BH: Behavioral health office visit
ER: Emergency room (waived if admitted)

How to Get Care

Routine well visits with your PCP are one of the best ways you and your doctor can stay on top of your health. Choose an in-network PCP to help manage your care.

Finding a PCP: Choose a PCP for yourself and every member of your family covered under your plan. You don't all need to see the same PCP. When selecting a PCP, consider the hospital where your PCP has admitting privileges. Visit myfindadoctor.bluecrossma.com to search in your network.

Seeing a Specialist: You don't need a referral from your PCP if you ever need to see a specialist. However, you must select an in-network specialist for the care to be covered under your plan.

Understanding Prior Authorization: We require prior authorization (pre-approval) before we cover certain services, procedures, or drugs. Prior authorization ensures you get the care that is medically necessary for you and covered by your health plan. Your doctor should submit any requests for prior authorization to us. If you or your doctor don't get prior authorization when it's needed, the care may not be covered and you may be financially responsible. Talk to your doctor to see if prior authorization is needed before you receive any services, procedures, or drugs.

Taking Action in an Emergency: In case of a medical or behavioral health emergency, call **911** or your local emergency number or go directly to the nearest medical facility. Be sure to notify your PCP, if applicable, within 48 hours to coordinate any follow-up care.

Getting Care Worldwide with BlueCard®: Your Blue Cross member ID card is widely recognized and lets you get urgent and emergency care worldwide. If you're traveling within the U.S. or abroad and need emergency medical care, go to the nearest hospital. Once you get care, call 1-800-810-BLUE (2583) or 1-804-673-1177 for 24/7 assistance.
