

Important Information About Your Plan

Your health plan lets you get care from providers who participate in the **HMO Blue New England Options v.5 Network**. Under this plan, you're required to choose a primary care provider (PCP) to manage your care and refer you to specialists, if needed. This is a tiered network, which means we place providers into three tiers based on cost and quality. Your provider's tier will determine how much you pay. Learn more about our criteria at myplans.bluecrossma.com/medical-insurance/blue-options.

For help finding a provider or hospital, visit myfindadoctor.bluecrossma.com and log in to select the following network: **HMO Blue New England Options v.5**.

How to Read Your ID Card

Your Blue Cross member ID card contains our Member Service telephone number and your member ID number, and sometimes lists the costs you'll pay for certain health services. You should always carry your ID card with you when you visit the doctor. You can also download the MyBlue App to keep a digital copy of your ID card on your phone.

Understanding Your Tiers

We rank doctors and general hospitals within this plan into three tiers based on cost and quality. In most cases, where you get care will determine how much you pay. You can find more information about our cost and quality criteria at myplans.bluecrossma.com/medical-insurance/blue-options.

You'll pay lower costs when you get care at doctors and general hospitals in the Enhanced and Standard tiers in Massachusetts and New Hampshire, but you still have access to our full HMO Blue New England network.

Enhanced Tier	\$ Lower cost	Includes Massachusetts hospitals and providers that meet our criteria for high quality and low costs
Standard Tier	\$\$ Low or moderate cost	Includes Massachusetts hospitals and providers that meet our criteria for high quality and have moderate costs; hospitals that don't meet the standards for high quality but have low or moderate costs; and providers who might be in the Basic Tier but don't have enough data for us to measure their quality or costs
Basic Tier	\$\$\$ Higher cost	Includes Massachusetts hospitals that have higher costs, and providers who don't meet the standards for high quality and have high costs

¹ This health plan uses the HMO Blue New England Options v.5. tiered provider network. Members in this plan may pay different levels of cost share (copayments, co-insurance, and deductibles) depending on the benefits tier of the provider (PCP or general hospital) furnishing the services. A provider's tier may change. Overall changes to the tiers of providers will happen no more than once each calendar year. For help in determining a tier of a provider, visit the online provider search tool at myfindadoctor.bluecrossma.com and search for HMO Blue Options v.5.

How to Get Care

Routine well visits with your PCP are one of the best ways you and your doctor can stay on top of your health. Choose an in-network PCP to help manage your care and refer you to specialists, if needed.

Finding a PCP: Choose a PCP for yourself and every member of your family covered under your plan. You don't all need to see the same PCP. When selecting a PCP, consider the hospital where your PCP has admitting privileges. Visit myfindadoctor.bluecrossma.com to search in your network.

Seeing a Specialist: If you ever need to see a specialist, your PCP must refer you for the care to be covered under your plan. Make sure your PCP has contacted the specialist's office and provided the referral.

Understanding Prior Authorization: We require prior authorization (pre-approval) before we cover certain services, procedures, or drugs. Prior authorization ensures you get the care that is medically necessary for you and covered by your health plan. Your doctor should submit any requests for prior authorization to us. If you or your doctor don't get prior authorization when it's needed, the care may not be covered and you may be financially responsible. Talk to your doctor to see if prior authorization is needed before you receive any services, procedures, or drugs.

Taking Action in an Emergency: In case of a medical or behavioral health emergency, call 911 or your local emergency number or go directly to the nearest medical facility. Be sure to notify your PCP, if applicable, within 48 hours to coordinate any follow-up care.

Getting Care Worldwide with BlueCard®: Your Blue Cross member ID card is widely recognized and lets you get urgent and emergency care worldwide. If you're traveling within the U.S. or abroad and need emergency medical care, go to the nearest hospital. Once you get care, call 1-800-810-BLUE (2583) or 1-804-673-1177 for 24/7 assistance.
