

Step Therapy Medication List

Step Therapy allows us to help your doctor provide you with a drug treatment that is safe, effective, and affordable. Before coverage is allowed for certain costly “second-step” medications, you’re required to first try an effective and less expensive “first-step” medication.

Below is the list of Step Therapy medications as of January 1, 2019. You can find the most up-to-date information on our website at bluecrossma.com/medications.
