National Preferred Formulary (NPF): Medications That Require Prior Authorization

Last Updated: January 1, 2020

The following list includes medications that are covered by plans with the National Preferred Formulary (NPF), which is available through Express Scripts, Inc.[®], an independent company that administers your pharmacy benefits on behalf of Blue Cross Blue Shield of Massachusetts.

These medications are subject to Prior Authorization, and require your doctor to obtain approval from us so your medications are covered. This step ensures that your doctor has determined that this medication is necessary to treat you, based on specific medical standards.

This isn't a complete list of covered medications, and inclusion on the list doesn't guarantee coverage.¹ You must have a valid prescription from a licensed health provider, and Prior Authorization from Blue Cross to receive coverage for these medications. Some medications may also be subject to other pharmacy management programs, such as Step Therapy or Quantity Limitations, or be considered specialty medications.

Learn More About Your Coverage

For more information about your pharmacy benefits, including the NPF and the medications listed in this document, log in to your MyBlue account at bluecrossma.com/myblue.

1. Not all medications listed are covered by all prescription plans. Check your benefit materials for details.
