

Non-Hospital Imaging Centers and Clinical/Diagnostic Labs

MASSACHUSETTS

This document includes non-hospital imaging (MRI/CT/PET) and diagnostic laboratory providers that are part of your network in Massachusetts. These facilities generally provide the same services you would receive at hospitals, but at a lower cost. If you are a member of a Blue Options health plan, or a plan with the Hospital Choice Cost Share benefits, you would pay the lowest out-of-pocket costs at these locations.

This health plan option includes a tiered network feature called Hospital Choice Cost Sharing. As a member in this plan, you will pay different levels of cost share* (such as copayments and/or co-insurance) for certain services depending on the network* general hospital you choose to furnish those covered services. For most network* general hospitals, you will pay the lowest cost sharing level*. However, if you receive certain covered services from any of the network* general hospitals, you pay the highest cost sharing level*. A network* general hospital's cost sharing level may change from time to time. Overall changes to add another network* general hospital to the highest cost sharing level will happen no more than once each calendar year. For help in finding a network* general hospital for which you pay the lowest cost sharing level*, check the most current provider directory for the health plan.

* - For the PPO plan designs, the different levels of cost sharing apply to in-network benefit levels at preferred general hospitals.
